AI-NATIVE, HIGHLY FLEXIBLE CLOUD VIDEO SECURITY

Cloud-Based Access from Anywhere, on Any Device

Award-winning cloud video security

Smart Alerts in Real-time

AI alerts on people, vehicles and license plates via app, text or email.

Find Events in 3 Clicks

Search by face, person attributes and history to find vital events fast.

Share Clips Instantly

Send event clips to your team, police and others via text or email.

Guardian AI: Your AI Security Brain

Agentic AI powered by LLMs and Generative AI

AI Search

Find footage with conversational queries, in seconds instead of hours.

"Find the FedEx truck between 4pm and 8pm yesterday"

AI Patrol

Checks every camera, every minute, against rules you write in plain language.

"Alert me when someone is lying on the ground"

AI Investigation

Connects events across cameras and turns hours of review into clear answers.

"Who entered the lab after hours and where did they go?"
