TURING

Built for the Challenges of Agricultural Security

Remote locations. Large properties. Valuable equipment. Limited infrastructure. Turing provides a turnkey security solution designed for agricultural environments.

Protect Your Property

Farm • Ranch • Orchard • Vineyard • Dairy

Secure Gates & Perimeters

Monitor remote entrances, gates and access points.

Protect Valuable Equipment

Keep an eye on tractors, machinery, vehicles and other expensive assets.

Improve Employee Safety

Monitor work areas and help identify potential safety concerns.

Monitor Wide Areas

Use time-lapse and wide-area views to keep an eye on large properties.

Deploy Where Traditional Security Can't

Solar-powered, wireless deployment for remote locations
