

Axis to Cloud with AI Integrated Solution by Turing and Axis

The Axis Cloud and AI License is a jointly developed solution by Turing and Axis, bringing Turing's unparalleled cloud and AI experience to all Axis cameras. With seamless integration, it unlocks the full potential of Axis cameras through cutting-edge cloud and AI technologies.

Cloud Native Platform

Direct to Cloud

Connect Axis camera with ACAP directly to the cloud, no extra hardware needed

Batch Install

Batch installation with Axis cameras in just a few clicks

Easy to Manage

Centralized management on a unified platform

Quick Share

Share events via app, email, SMS notifications

Smart AI

Proprietary AI Algorithms

Turing Proprietary AI Algorithms ensure continuous innovation and best customer experience

Smart Search

Find people / vehicles of interest in seconds; Detection of people attributes (clothing, color, hat) and vehicle license plate & attributes (make, color, type, model)

Smart Alerts

Receive instant smart alerts for intruders, trespassers, person / vehicle of interest via SMS / Email / push notifications in real-time

Turing and Axis Unified as One Solution

Seamless Integration

Jointly developed for a seamless experience, this solution connects all Axis cameras directly to the Turing Cloud, no extra hardware or complex installation required

Always Updated

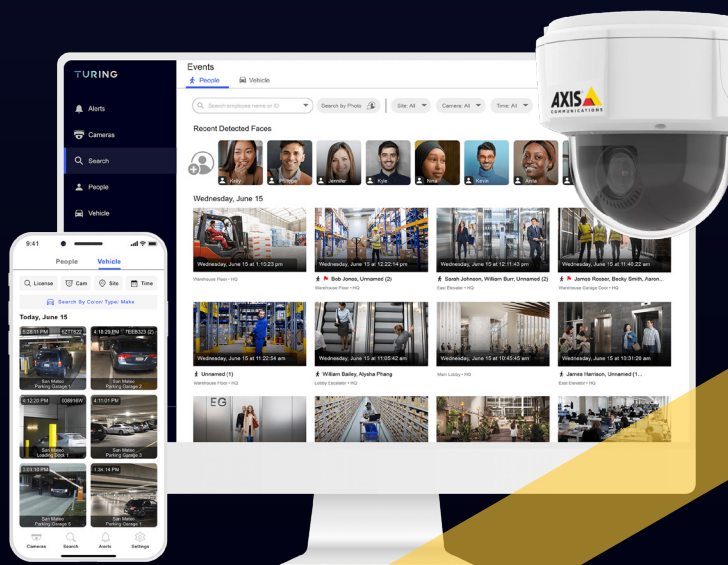

Cloud-native with over-the-air (OTA) updates, fully unlocking the potential of Axis cameras

Enterprise Security

Enterprise-level central management with SSO, audit logs, and user group management

API Integrations

The open API enables seamless cloud integration with partner systems like Immix, ensuring efficient data exchange, enhanced functionality, and optimal performance

Turing Vision-Axis Cloud and AI License (TV-ACAI) Feature List

TV-ACAI, Peace of Mind with 1/3/5 Years Options

Axis Cameras Integrations

Direct to Cloud, No Extra Hardware Required

Batch Camera Installation

Over-the-air (OTA) upgrades

Camera Health Monitoring

Axis Motion Detection, AOA and LPR Supported

Fisheye Dewarp

Smart AI Analytics

Intelligent Alerts: People / Vehicles of Interests (App, Email, SMS)

Share Clips and Live View Instantly

People / Vehicle Events with 5s Clip for 30 Days

Face & Vehicle Search, People & Vehicle Attribute Search

Time-lapse

Human Blur on Export

Cloud Native VMS

Live View / Playback / Download

Web & Mobile App

Google Site Map

30GB Cloud Archive

Case Management

Enterprise Management

Active Directory / Single Sign-On (SSO)

Audit Log / IP Authorized List

Enterprise Customized Role Based Access Control (RBAC)
